## General Practitioners with academic interest

- Distribution Priority Area – MMM 5
- Mixed billing practice
- Accredited GP training post
- Onsite supervision or remote available
- Guaranteed income period
- Relocation expense subsidy
- Attractive On-Call retainer

### **JOB DESCRIPTION:**

Are you a seasoned GP or someone aspiring to be a GP, looking for a fantastic lifestyle in a lovely township surrounded by lakes, wildlife and nature?

Kerang Medical Centre is one of two clinics in Kerang servicing the local community of more than 4,000 residents. It is owned and operated through Kerang District Health and is a mixed billing clinic and an accredited teaching practice.

We are currently seeking GPs, both seasoned and new, to join our team in Kerang, Victoria. A conjoint academic appointment is available with our University Partners on application with an opportunity to teach at the Mallee Clinical School – Undergraduate Medical Students in all years of training. You can also have pre-matching to advance skills training in various specialties with the VRGP program.

Depending on your level of experience, you may also be eligible to provide VMO GP services to Kerang District Health in the form of admitting rights and participation in the on-call roster for urgent care services and participate in the education calendar to support the hospital clinical team.

KDH is a 50 bed rural health services with a strong relationship with neighboring health partners, providing an integrated range of acute services - including oncology and surgical services; a bed based and community based transition care program and post-acute care service; district nursing services; residential aged care and community services to Kerang and the wider community.

*Kerang District Health is an Equal Opportunity Employer*

For an experienced GP, on a normal day you would see approx. 30 to 40 patients with consultations including acute, chronic, telehealth, women's health, lumps and bump procedures, and chronic disease management. There is flexibility with work/life balance and ability to professionally develop your skills.

- Fee for service payments for VMO work at the hospital
- On-site or remote supervision available
- Generous Salary packaging including remote area housing and fuel
- Attractive On-Call Retainer
- Flexibility with work/life balance according to your needs

#### **POSITION REQUIREMENTS**

- AHPRA Registration – General or specialist
- Current accident and emergency skills
- ALS 2 credentials (or willing to complete)
- Anaesthetic skills (desirable)
